TANUSHREE C R

MCA STUDENT | COMPUTER SCIENCE | SOFTWARE DEVELOPMENT | AI/ML

Bengaluru, India | +91 9513870072 | tanutanushree967@gmail.com | linkedin.com/in/tanushree-cr

PROFESSIONAL SUMMARY

MCA candidate specializing in Artificial Intelligence, Machine Learning, and Data Science, with hands-on internship experience in data analysis and AI application development. Skilled in Python programming, SQL, data preprocessing, machine learning model training, evaluation, and API integration. Experienced in developing Python-based applications and integrating APIs. Strong analytical thinking, problem-solving, and debugging abilities, with an interest in software engineering, data analytics, and AI/ML development.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, HTML5, CSS3
AI/ML and Data Science: Scikit-learn, Random Forest, Classification, Model Training, Model Evaluation, Data Cleaning, Data Preprocessing, EDA, Data Visualization
Frameworks and Libraries: Flask, Gradio, REST APIs, Google Gemini API, gTTS
Databases: MySQL, PostgreSQL, SQL Queries
Development Tools: Jupyter Notebook, Google Colab, Git Fundamentals
Core Competencies: Programming Fundamentals, Database Fundamentals, Debugging, Troubleshooting, Application Testing

INTERNSHIP EXPERIENCE

AI / Software Development Intern – Mevi Technologies **February 2025**

- Developed a Python-based AI chatbot using the Google Gemini API to generate context-aware conversational responses.
- Integrated API calls with application logic to support interactive user requests and response generation.
- Built an interactive application interface using Gradio and implemented text-to-speech functionality using gTTS.
- Tested application functionality, identified issues, and refined user interaction workflows through iterative development.

Data Analysis Intern – Bharat Electronics Limited (BEL) **December 2024**

- Analyzed datasets using Python to identify patterns and generate actionable insights.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to prepare datasets for analysis.
- Conducted data validation and quality checks to improve data consistency and reliability.
- Created data visualizations and communicated findings to support data-driven decision-making.

ACADEMIC PROJECTS

AI-Powered Chatbot
Technologies: Python, Google Gemini API, Gradio, gTTS

- Developed a conversational AI application using Python and Google Gemini API to generate context-aware responses.
- Integrated API calls with application logic and created an interactive web interface using Gradio.
- Implemented text-to-speech functionality using gTTS and tested conversational workflows.

Symptom-Based Disease Prediction System
Technologies: Python, Scikit-learn, Random Forest

- Developed a machine learning classification application to predict potential diseases based on user-provided symptoms.
- Performed data preprocessing, feature preparation, and data validation for machine learning model development.
- Implemented a Random Forest classification model using Scikit-learn and evaluated its prediction performance.

EDUCATION

Master of Computer Applications (MCA) – AI, ML and Data Science **2025 – 2027**
S-VYASA Deemed to be University, Bengaluru

Bachelor of Computer Applications (BCA) **2022 – 2025**
RNS First Grade College, Bengaluru CGPA: 8.16/10

Pre-University Course (PUC) **2020 – 2022**
Mahesh PU College, Bengaluru 91%

CERTIFICATIONS

- Data Analytics – Agastya Academy
- Python for Data Science – Mevi Technologies
- Disease Prediction using Machine Learning – Bharat Electronics Limited (BEL)
